2- Why should people listen?

3- What are you passionate about?

4- What will you do for people?

Update your bio

Choose one platform, and using the unique angle pitch you wrote out before, clean up and rewrite your profile/bio on that platform to reflect who you are and how you help your ideal customer.

Content Circle

Create your own Content Circle

The Growth Machine

Who's your customer?

Describe to me who your ideal customer is.
The MORE specific the better. Think about their gender, age, location, and anything else that makes them unique.

Where are your customers?

Now list at least five places your customers are and how many sales in thirty days you think you can get from them.

The Growth Machine (Cont'd)

<u>What marketing strategies can I double down on?</u>

Make your customers happy

Ask one customer: “What is one thing I can do today that will make you twice as happy with us?”

1- What is your one goal for the year?

2- Who exactly is your customer and where can you find them?

3- What is one marketing activity you can double down on?

4- How can you delight your first 100 customers?

5- If you HAD to double your business with no money in thirty days, what would you do?

Accountability buddy

My accountability buddy is:

Connect with a Prefluencer

The Prefluencer I'm reaching out to:

Ask your friends for one referral

1- Tell me the first person that comes to mind. Who's the most impressive friend you know?

2- Send this message to that friend.

> Hey <friend>
> You are the most impressive friend I know and I'd love your help in expanding my network.
> I love: VR, 3D printers, email marketing.
> Who's one person you think I should connect with?
>
> If no one comes to mind, no pressure.

3- After you've had a great meeting with that person, thank your original friend and ask the new one for a referral.
